NOV 21 2005

Sir:

Applicants respectfully request a corrected publication of the above-listed application pursuant to 37 C.F.R. § 1.221(b) due to a material mistake made by the Office. In particular, claim 16 of the publication is incorrect. In particular, the publication incorrectly states the closing language of subparagraph (b) of claim 16 (--not contacted or ITGL-TSP polypeptide activity.— should read “not contacted for ITGL-TSP polypeptide activity.”).

The above mistake is apparent from the Office records, as the application as filed contains the correct claim 16 in its entirety. The mistake is also apparent from the publication, as claim 16(a) is cut off in mid-phrase. The above mistake is apparent from the Office records, as the return receipt postcard indicates that the application was filed in its entirety, including all claims, on January 15, 2004 (copy attached).

Moreover, the above mistake could be material, as the scope of claim 16 cannot be determined from the publication. Thus, this error affects the scope of provisional rights

accorded Applicants under 35 U.S.C. § 154(d) based on the instant publication.

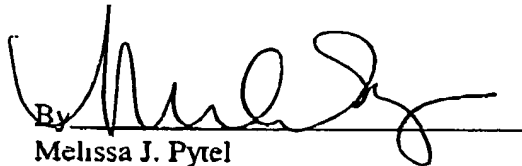

Additionally, the mistake in the claim could undermine the strength of the publication as a prior art reference, since a U.S. Patent Application Publication must claim the same invention in order to prevent others from submitting an Affidavit or Declaration of Prior Invention under 37 C.F.R. § 1.131.

Accordingly, Applicants respectfully request that a corrected publication of the above-listed application be made pursuant to 37 C.F.R. § 1.221(b).

No fee is believed due for this submission. In the event that a fee is required in connection with this submission, please charge the required fee to Deposit Account No. 08-3425.

Dated: November 21, 2005

Respectfully submitted,
